Oklahoma State Board of Education
Oliver Hodge Education Building, Room 1-20
2500 North Lincoln Boulevard
Oklahoma City, OK 73105

Dear State Board of Education Members,

Harding Charter Preparatory High School is happy to offer our support for Oklahoma's new reading and math standards. As we are always trying to achieve higher success with our students, the same should be done with the standards with which we use to teach them. Thus, we feel these standards are an improvement on the current PASS standards, and we believe they will help prepare our students for their lives beyond high school.

I am pleased to see the state department involving so many educators in the writing and evaluation process, as we are the experts in the matter and know what our students need. We also recognize the importance of standards in providing an essential roadmap for teachers to ensure students are given the highest level of instruction at each grade level, and I am encouraged to know that we are raising the bar for them.

We are happy to provide our support and recommend approval of the standards. Thank you for your service and commitment to Oklahoma's students.

Sincerely,

Mylo Miller, Ed.D
Principal
Harding Charter Preparatory High School
