FISCAL YEAR DIMENSIONS

Summary of Fiscal Year Dimensions:

1. **FY 2006-07**
2. **FY 2007-08**
3. **FY 2008-09**
4. **FY 2009-10**
5. **FY 2010-11**

Fiscal year (FY) denotes a twelve-month period of time, from July 1 through June 30, to which the annual budget applies, and at the end of which the district determines its financial position and the results of its operations. The terminal digit of the applicable year designates the code; e.g., year 2010-11 would be coded 1.

FUND DIMENSION DEFINITIONS

- 10 GENERAL FUNDS. Account for all financial resources of the local educational agency (LEA) except those required to be accounted for in another fund.
- 11* **General Fund** (For Operations). The general fund of any school district is hereby defined as a current expense fund, as defined in 70 O.S. § 1-117.
- 12* **Cooperative Fund** (For Cooperative Programs). The Co-op fund is hereby defined as a current expense fund, as defined in 70 O.S. § 5-117.
- 20 SPECIAL REVENUE FUNDS. Account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes.
- 21* **Building Fund**. The building fund of any school district shall consist of all monies derived from the proceeds of a building fund levy, voted by the people of a school district, not to exceed five mills in any year, as defined in 70 O.S. § 1-118.
- Schools which receive gifts or donations or state-appropriated monies for the purpose of capital expenditures or projects shall place such monies in the building fund, and not in the general fund.
- School districts which receive monies from rental, sale, or lease of buildings, Impact Aid monies, or grants, whether from state, federal, or other sources, may place such monies in the building fund or the general fund authorized by 70 O.S. § 1-117.
- 22* **Child Nutrition Programs Fund**. Title 70 O.S. § 5-158 states that state, federal, and local collections for child nutrition monies may be placed in a governmental budget account that will be administered through your school district treasurer and appropriated separately from all other appropriated funds. The beginning fund balance each year, combined with all actual revenues including collected and estimated revenues, must be appropriated before being expended. Purchase orders shall be issued against available appropriations, and once goods or services have been received, either payable or nonpayable warrants shall be issued in payment of all purchase orders.
- 23* **Special Building Fund (55I052, Mid-Del Schools only)**.
- 24* **Oklahoma City Metropolitan Area Public Schools (MAPS) Trust**. Title 70 O.S. § 3-104 (Number 18) states that the State Board of Education shall prescribe a list of appropriation accounts by which the funds of school districts shall be budgeted, accounted for, and expended. This code meets the requirement of the Resolution of the Oklahoma City Metropolitan Area Public Schools Trust to keep this money at the school district in a separate fund.
- 25* **Municipal Tax Levy**. Money derived from special sales tax on behalf of the school district. These funds are to be kept separate and expended only for those items addressed in the tax levy agreement.
- 26* **Childcare and Limited Services for Children**. Community lunch and childcare services contracted through Department of Human Services. Does not include childcare before or after school by 21st Century grants or Child Nutrition funds.
- 30 CAPITAL PROJECTS FUNDS. Account for financial resources used to acquire or construct major capital facilities other than those of proprietary and trust funds. A bond fund holds proceeds

from the sale of bonds from which all expenditures for bond projects are paid, as defined in 62 O.S. § 574.

A separate fund shall be assigned for each capital project. Bond fund titles should include purpose and fiscal year of authorization. For example, a bond issue authorized for transportation equipment in November of 2009 would be the Transportation Bond Fund of Fiscal Year 2010. All transactions would be identified by the fiscal year in which the encumbrances and/or warrants were issued.

The propositions set forth in a bond issue identifying specific projects shall be accounted for in the Project Reporting dimension series 001-199 assigned by the LEA. If more than one bond issue is authorized in a fiscal year and such bond issues are for a period of ten years or more, multiple issues may be combined by using one bond fund number and tracking propositions via the Project Reporting dimension.

PROJECT REPORTING DIMENSION DEFINITIONS

The Project Reporting dimension permits LEAs to accumulate funds to meet a variety of specialized management and reporting requirements regardless of whether they are district, state, or federal. Funds may be accumulated under individual projects, as below, with the flexibility of accommodating additional projects that LEAs might wish to account for on a permanent or temporary basis.

000* **NONCATEGORICAL FUNDS.** Funds for which the LEA has no need or desire to classify as below.

001-298 **CATEGORICAL/SPECIAL BUDGET SERIES.** District funds that need to be tracked. Budget name and number to be assigned by LEA. Some LEAs may wish to collect a group of diverse fund classifications for which a single individual or position is responsible; e.g., the music supervisor is allocated a music budget for distribution to all instructional operational units, the total budget would be assigned a Project Reporting number, and the allocation to various operational units could be made using the operational unit dimension. Another example would be an instructional supplies budget controlled by the principal of each school site. The Project Reporting number would be assigned and include the total instructional supply budget for the district and the amount allocated by each school site indicated by the Operational Unit dimension. Since these funds are unlikely to include restricted and categorical funds with which this dimension is essentially concerned, codes 001-199 have been reserved for this purpose.

299* **Gifts and Endowments.** Money received from a philanthropic foundation, private individual, or private organization for which no repayment or special service to the contributor is expected. Included are monies from which income may be expended, but the principal must remain intact.

FUNCTION DIMENSION DEFINITIONS

Function means the action a person takes or the purpose for which a thing exists or is used. Function includes the activities or actions which are performed to accomplish the objectives of an enterprise. The activities of a LEA are classified into six broad areas or functions: instruction, support services, operation of noninstruction services, facilities acquisition and construction services, other outlays, repayment of restricted funds, and other uses. Functions are broken down into subfunction areas.

Each of these program levels consists of activities which have somewhat the same general operations objectives. PROGRAM EXPENDITURE DIMENSION DEFINITIONS

Program dimension is required to be used with Functions 1000 and 2330. Program dimension may be used with any other function for tracking purposes.

A program is a plan of activities and procedures designed to accomplish a predetermined objective or set of objectives. Nine broad program areas are identified: regular programs, special programs, vocational programs, other instructional programs, continuing education programs, community services programs, all instructional programs, and athletic programs. An undistributed expenditures category is added to accumulate expenditures that cannot be charged to one of the programs, but can be allocated later by an indirect cost allocation process.

The program dimension provides the LEA the framework to classify expenditures by program to determine cost.

000* SERIES—UNDISTRIBUTED EXPENDITURES (FOR ALL FUNCTIONS EXCEPT 1000 and 2330). All charges which are not readily assignable directly to a program are classified. For program-costing purposes, the charges to functions in the 1000, 2000, and 3000 series and this account may be attributed indirectly to instructional, community service, and enterprise programs. Charges to function series 4000 and 5000 using this program code normally are not allocated to other programs.

REVENUE DIMENSIONS

FY	FUND	PROJECT REPORTING	SOURCE OF REVENUE	PROGRAM	OPERATIONAL UNIT
X	XX	XXX	XXXX	XXX	XXX

Definitions of Revenue Dimensions

FY	Fiscal year of the fund involved. Example: FY2010-11.
FUND	A fiscal and accounting entity with a self-balancing set of accounts recording cash and other resources together with all related liabilities and residual equities or balances or changes therein. Examples: General, building, school activity, trust.
PROJECT REPORTING	The Project Reporting dimension permits LEAs to accumulate revenues to meet a variety of specialized management and reporting requirements, regardless of whether the programs receive district, state, federal, or multisource funding. Revenues may be accumulated under individual projects with the flexibility of accommodating additional projects that LEAs might wish to account for on a permanent or temporary basis. Examples: Summer school program, child nutrition program, vocational program, IDEA-B.
SOURCE OF REVENUE	This dimension permits segregation of revenues by source. The primary classification differentiates district, intermediate, state, and federal revenue sources. Revenues from restricted sources would be further classified using the Project Reporting dimension.
PROGRAM	A plan of activities and procedures designed to accomplish a predetermined objective. The 800 series is to be used for competitive athletic programs as cocurricular activities. The 900 series is to be used for cocurricular and extracurricular programs which the district might want to track. See H-1.

FOREWORD

The *State Board of Education Policies and Procedures for Implementation of the Oklahoma Cost Accounting System (OCAS) and School Finance* was presented to the Oklahoma State Board of Education during a regular meeting on March 19, 1992.

These policies and procedures have been prepared to assist in the implementation for financial transactions utilizing the coding structure of the Oklahoma Cost Accounting System. The goal of the Financial Services Division of the State Department of Education is to have consistency in coding and accurate implementation of school laws and State Board regulations relating to school finance.

The rules describe the basis of funding of public schools; the duties and procedures for the financial operation of districts; and the responsibilities of the State Department of Education and individual districts in regard to securing, dispensing, reporting and accounting for school funds.

Boards of education, superintendents, business managers, encumbrance clerks, treasurers, independent auditors, and others who have the responsibility for preparation of school district budgets and the administration of school district funds must become familiar with these policies and procedures.

LAWS AND REGULATIONS

Statutory provisions allowing the State Board of Education to administer the laws pertaining to Oklahoma school finance are found primarily within Title 70 of the Oklahoma Statutes, Articles 5 and 18. Related provisions are found in Titles 62 and 68 of the Oklahoma Statutes.

School districts shall report financial transactions for all funds, except for the school activity fund, using the Oklahoma Cost Accounting System (OCAS) as adopted by the State Board of Education pursuant to 70 O.S. §§ 5-135 and 5-135.2. Costs shall be reported by curricular subject area where applicable. For the 1992-93 school year and in each subsequent school year, school districts shall report financial transactions **for all funds** using the Oklahoma Cost Accounting System. Cost shall be reported by curricular subject area where applicable.

A permanent rule was accepted on December 31, 1991, under Oklahoma Administrative Code (OAC) Subchapter 1, 3, 5, and 7, Chapter 25: Finance, Title 210, State Department of Education.

Accounting System

Section 98. Alternate System of Accounting.

- A. The board of education of each school district shall use the following system of initiating, recording and paying for all purchases, salaries, wages or contractual obligations due from any of the funds under the control of such board of education. However, a school district board of education may use the procedures outlined in Section 304.1 of Title 62 of the Oklahoma Statutes for the payment of salaries and wages only if the board so votes. The provisions contained herein shall not apply to the sinking fund and school activity fund.

- B. The encumbrance clerk and treasurer of the school district shall each enter the authorized amounts in the various appropriation accounts of the funds to which this system is applied. The authorized amounts of appropriations shall be the general fund and building fund appropriations approved by the county excise board and such additional amounts as may be applied in the manner provided by law, the amount received for deposit in a special cash fund where such special cash fund is authorized by law or required by the person or agency providing such funds, or the amount of the net proceeds realized from the sale of bonds of the school district and any other income due such fund.

- C. It shall be the duty and responsibility of the board of education of the school district to prescribe and administer adequate business procedures and controls governing the purchase or confirmation of purchase and delivery of goods or services. The procedures shall include delivery of an acceptable invoice by document, facsimile, electronic or other standard form that includes the information required by the district. Such procedures shall include the designation of authorized persons to purchase goods or services for the district and the method of determining the school employee receiving delivery of each purchase.

- D. Prior to the issuance of a purchase order, the encumbrance clerk must first determine that the encumbrance will not exceed the balance of the appropriation to be charged. The encumbrance clerk shall charge the appropriate appropriation accounts and credit the affected encumbrances outstanding accounts with the encumbrances. Encumbrances must be submitted to the board of education in the order of their issuance on a monthly basis, subject to a monthly business cycle cut-off date determined by the board of education. Approved encumbrances shall be listed in the minutes by the minute clerk.

- E. Before any purchase is completed, a purchase order or encumbrance must be issued. No bill shall be paid unless it is supported by an itemized invoice clearly describing the items purchased, the quantity of each item, its unit price, its total cost and proof of receipt of such goods or services. The bill and/or invoice shall be filed in the encumbrance clerk's official records. If a district has the ability to electronically utilize evaluated receipt settlement (ERS), the district may remit to vendors on that basis if the requirements of this subsection are fulfilled. In the event a district is establishing electronic data interchange, electronic entries will suffice in lieu of paper documents. In order for a district to be authorized to utilize an evaluated receipt settlement system:
 - 1. The ERS must result in payment by the district from vendor receipts that have been matched to the purchase order date;
 - 2. The ERS may only be used when there is an agreement between the district and the vendor for use of an ERS; and
 - 3. The ERS must be included in the district's journal ledger/accounts payable/purchase order software.

- F. The encumbrance clerk shall debit the encumbrances outstanding account and credit the accounts payable account for the amount of the approved bill. The board of education shall determine the extent such costs may fluctuate without additional board action. Minor adjustments not requiring additional board approval shall be referenced to the original encumbrance.

- G. An approved bill may be paid by issuing a warrant or check against the designated fund only after ascertaining that proper accounting of the purchase has been made and that the files contain the required information to justify the expenditure of public funds, except as otherwise provided in subsection I of this section. The warrants or checks so issued shall be recorded in an orderly numerical system established by the district. The encumbrance clerk shall charge the warrant or checks against the accounts payable account and credit it to the warrants or checks issued account. Provided, if payment is to be made immediately and the board of education deems it advisable, the postings to the accounts payable account may be omitted and the payment of the approved bill may be credited directly to the warrants or checks issued account. The warrant or check shall show on its face the name of the school district, the date of issue, the payee, the amount, the expenditure classification code, and such other information as may be necessary or desirable. The president and clerk of the board of education shall each sign the warrant or check, or approved facsimile, thereby denoting to the public that the warrant or check is for the purpose and within the amount of the appropriation charged.
- H. The treasurer shall register the warrant or check in the warrant or check register, charging the appropriation account and crediting the warrants or checks outstanding account of the designated fund. Provided, no warrant or check shall be registered in excess of the appropriation account's balance. All warrants or checks shall be registered in the order of their issuance. Voided warrants or checks shall be registered and filed with the treasurer. The treasurer shall sign each warrant or check through individual signature or approved facsimile showing its registration date and if issuing a warrant, shall state whether it is payable or nonpayable. When a warrant or check is paid, the treasurer shall maintain evidence the warrant or check has been processed and paid. Nothing in this subsection shall prohibit any governing board from using automated recordkeeping procedures, provided the information required in this subsection can be accessed.
- I. Any board of education of a school district of this state may make a payment, which would otherwise be made by warrant or check, by disbursement through an Automated Clearing House, bank account debit system, wire transfer through the Federal Reserve System, or any other automated payment system operated by a financial institution insured by the Federal Deposit Insurance Corporation. The internal controls over such payment system shall be reviewed and approved by the independent auditor of the district during the annual audit. The provisions of Sections 601 through 606 of Title 62 of the Oklahoma Statutes shall apply to instruments or payment authorized by this subsection.
- J. School districts complying with the provisions of this act shall use only those forms and accounting systems approved by the State Board of Education. Such forms and systems shall be considered in substantial compliance with this act if they are sufficient to convey the meaning and sequence of transactions contained herein. Provided, nothing contained herein shall be construed to limit or prevent the use of additional or subsidiary accounts, forms, or files which may be deemed necessary or advisable by the board of education of the district or the State Board of Education.
- K. Any school district desiring to utilize the services of a data processing center to furnish any or all of the records herein required may do so if the center and its system complies with this act and the rules and regulations of the State Board of Education. Such center shall furnish an honesty bond in an amount to be set by the board of education but not less than Ten Thousand Dollars (\$10,000.00).
- L. The State Board of Education shall notify the board of education of the school district of the tentative amount the district is to receive from state and federal aid funds or allocations, and the board of education of the school district may include such tentative estimate as an item of probable income in the preparation of the school district's Estimate of Needs and Financial Statement; provided, no such federal aid estimate shall be used in any way to reduce the State Foundation Aid or Incentive Aid for such school district or sustain a protest for the reduction of a tax levy. **(70-5-135)**

Activity Funds

210:25-5-13. School Activity Fund

- (a) The following words and terms, when used in this Section, shall have the following meaning, unless the context clearly indicates otherwise: "**School activities**" means cocurricular or extracurricular activities. Cocurricular activities are school-sponsored activities, under the guidance and supervision of LEA staff, designed to provide students such experiences as motivation, enjoyment, and improvement of skills. Activities normally supplement the regular instructional program. Extracurricular activities mean all direct and personal services for public school pupils for their enjoyment that are managed and operated under the guidance of an adult or staff member. Extracurricular activities are usually not offered for school credit nor required for graduation; conducted outside school hours, or a time agreed by the participants if partly during school hours and approved by school authorities; their content of activities is determined primarily by the pupil participants.
- (b) The board of education of each district shall exercise control over the School Activity Fund. Board approval of the School Activity Fund and Sub-Accounts shall be specific. However, the language for approval for the various methods for raising funds and the purposes for which they are to be expended can be of a general nature. The board may delegate authority, through a board policy, to school administrators to approve specific fund-raising activities during the year to be approved by the board at the next regular board meeting.
- (c) The board of education of each district may appoint a School Activity Fund Custodian for each operational site within the district. If a school elects to have an operational site, each School Activity Fund Custodian shall be bonded for no less than \$1,000.
- (d) Disbursements from the School Activity Fund shall be by check, countersigned by the School Activity Fund Custodian and some other person or persons designated by the board of education.
- (e) Deposits to or transfers from any account may be authorized by the board of education except School Lunch, Refund, and Petty Cash Accounts. Provided that reimbursement to the General Fund may be made from the School Lunch Account for food service expenditures paid from the General Fund. Such reimbursements should be properly documented and based solely on actual General Fund Expenditures.
- (f) The School Activity Fund Custodian shall not use funds in one account for another purpose unless a transfer is granted as provided by law.
- (g) Accounts may be established by the board of education of each district by whatever name or style it deems best suited to its needs for the revenue collected.
- (h) A prenumbered receipt shall be obtained when a check is drawn against the Petty Cash Account, and all such prenumbered receipts shall be accounted for at the end of a fiscal year. If a prenumbered receipt is spoiled it should be marked "void" and attached along with others on which reimbursement is being claimed; the copy or stub should also be marked "void" if one is being used.
- (i) A separate bank account may be established for School Lunch or other programs, but it shall be accounted for by the Activity Fund Custodian in charge and disbursements made as provided by law.
- (j) A general or miscellaneous account may be established within the Activity Fund to which all unobligated or uncommitted monies may be transferred. (This does not include Petty Cash, Refund, or School Lunch Accounts where contrary to federal regulations.)
- (k) Purchases from the School Activity Fund shall not be paid for unless invoices or delivery tickets are furnished.
- (l) Receipts for collections shall be given by the School Activity Fund Custodian. Prenumbered tickets should be used for admissions in order to establish internal control. All tickets not sold by the gate keeper should be accounted for at the end of each event and a written reconciliation made of tickets sold to actual revenues

collected. Reconciliation documents should be filed in date order as part of the documentation for the School Activity Fund.

- (m) Standard forms are not prescribed. Many good forms are now in use, and each board of education shall determine if its forms meet the legal requirements.
- (n) School districts shall report all School Activity Fund financial transactions using the Oklahoma Cost Accounting System.
- (o) Specific procedures for the School Activity Fund are as follows:
 - (1) Prenumbered School Activity Fund receipts shall be issued for every Sub-Account for each fiscal year.
 - (2) The secretary-treasurer of each organization or Sub-Account shall issue receipts and keep records of credits, debits, and balances.
 - (3) The books of each account must reconcile the records of the School Activity Fund.
 - (4) Requisition or purchase request is presented to the School Activity Fund custodian or their designee.
 - (5) Purchase order is then approved by purchasing agent and the order is placed with the vendor.
 - (6) Checks will be issued only when invoice or supporting document and merchandise have been received.
 - (7) All checks will be issued by the School Activity Fund custodian and countersigned. No check will be issued in excess of Sub-Account balance.
 - (8) Record of all bad checks shall be kept and charged to proper Sub-Account.
 - (9) Each School Activity Fund Sub-Account shall be reported to the State Department of Education through curricular subject dimension of OCAS, where applicable. Reports will be transferred by magnetic media.
 - (10) The School Activity Fund custodian shall furnish a report to superintendent and board of education monthly. This report should show previous balance in each Sub-Account and total School Activity Fund balance. The Activity Fund custodian shall reconcile the bank statement when received. This information will be included in the monthly report to the superintendent and board of education.
 - (11) Every teacher in the school system should be informed that all money received is to be turned in to the School Activity Fund custodian.
 - (12) The petty cash account is the only Student Activity Sub-Account that can be reimbursed from the general fund.
 - (13) A general fund refund Sub-Account within the School Activity Fund may be established by board resolution.

The written policy shall specify procedures, contain documentation requirements, and may include payment of meal expenses during authorized travel on a per diem allowance basis rather than itemized documentation.

OAC 210:25-5-5. Auditing

- (a) The statutes of the state of Oklahoma require the board of education of each school district to cause an annual audit of the district's financial activity. The audit must be made in accordance with State Statutes, State Board of Education Regulations and Federal Office of Management and Budget (OMB) Circular A-133. Audits may be performed only by those auditors possessing basic legal qualifications and admitted to the list of auditors approved by the State Auditor and Inspector (SA&I). The SA&I has the option to deny the following year's application of any auditor or audit firm for noncompliance with the "School Audit Law." The auditor or audit firm may make application to be included on the approved list of auditors after one year's suspension. The SA&I shall examine each audit report and demand corrections of any existing deficiencies. It is mandatory that State Aid payments be withheld during noncompliance with the "School Audit Law."
- (b) Auditing is process of examining documents, reports, systems of internal control, accounting and financial procedures, and other evidence to ascertain:
- (1) That the statements prepared from the accounts present fairly the financial position and results of financial operations of each of the school's funds;
 - (2) That the school administration has properly complied with statutory requirements and the rules and regulations of the State Board of Education in the conduct of its financial transactions;
 - (3) That the school's financial transactions have been conducted with mathematical accuracy and have been properly recorded;
 - (4) That the school has complied with the terms of grants and special agreements;

- (5) That adequate stewardship has been exercised by the school board, its officers and employees in the conduct of their duties in the administration of school assets.
- (c) The audit must encompass all of the school district's funds. The requirements in (b) of this section form the basis for the reporting of the school's general, special revenue, capital projects, and debt service funds. School activity funds, including school lunch funds, and other trust or fiduciary funds must also be included in the audit report.
- (d) The accounting principles by which all audits will be performed are as follows:
- (1) The school district's accounting system must conform with the laws of the State of Oklahoma and the rules and regulations of the State Board of Education.
 - (2) The school district's accounting system shall make it possible to demonstrate compliance with legal provisions.
 - (3) The school district's accounting system shall clearly reflect the financial operations of the school district.
 - (4) If accounting principles, procedures, or standards conflict with legal or regulatory provisions, the legal or regulatory provisions shall take precedence.
 - (5) The accounting system shall be kept in the manner prescribed by the State Board of Education or in the manner of an accounting system approved by the State Board of Education.
 - (6) The school district shall establish the funds prescribed or authorized by law and necessitated by sound financial judgment. The classification of funds shall be faithfully followed in the Estimate of Needs, Accounting System and Financial Reports.
 - (7) A complete self-balancing group of accounts shall be established for each fund. Each such group will include all the accounts necessary to set forth the financial operations of the fund and to reflect compliance with legal and regulatory provisions.
 - (8) If a fixed asset fund is maintained, the accounts shall be kept on the basis of original cost, or the estimated cost if the original cost is not available, or in the case of gifts, the appraised value at the time received.
 - (9) The accounting system shall provide for budgetary control for both revenues and expenditures, and the financial statements will reflect, among other things, budgetary information.
 - (10) The accounts, except activity funds, shall be maintained on a modified cash basis in accordance with the laws of the state of Oklahoma or a school district may elect to file an application with the State Board of Education to convert to Generally Accepted Accounting Principles (GAAP) accounting. The State Board of Education will approve or reject the application based on the district's ability to implement the practice.
 - (11) Revenue and expenditures shall be classified in accordance with State Board of Education regulations in order to provide uniform accounting and consistent statistics.
 - (12) A cost accounting system is required. Cost accounting is in addition to a required financial accounting system, however, and must not be allowed to interfere with its uniform application. Although depreciation is not included in a required accounting system, it should be considered in determining unit cost when a cost accounting system is used.
 - (13) A common terminology and classification based upon that prescribed by State Board of Education rules and regulations, shall be used consistently throughout the estimate of needs, accounts, and financial reports.
- (e) Primary audit procedures will consist of the following:
- (1) Each Local Educational Agency (LEA) will engage an independent auditor, approved by the SA&I, to examine its financial statements. Each LEA superintendent shall notify the State Board of Education, prior to the end of the fiscal year to be audited, of the independent auditor who has been engaged to conduct the audit.
 - (2) Where there are differences in state and federal standards due to the statutory and regulatory requirements in both levels of government, the LEA and the auditor will examine and adhere to both in order to be in total compliance.
 - (3) The Oklahoma State Department of Education will establish and maintain a monitoring system to assure that federal audit requirements are met. The Oklahoma State Department of Education will review each, A-133 audit report and notify the appropriate federal program administrator of any deficiencies reported by the independent auditor regarding federal programs. The administrator will implement the procedures deemed necessary to resolve the exceptions noted by the auditor. The final result of the action taken will be filed with the audit report no later than 90 days after the program administrator has been advised of the auditor's findings.
- (f) Audit report requirements are as follows:
- (1) Audit reports may be presented in the following formats:

- (A) Schools which have obtained prior approval from the State Board of Education to use generally accepted accounting principles (GAAP), must use a straight GAAP Governmental Accounting Standards Board (GASB) No. 34 compliant presentation.
 - (B) Schools using the regulatory basis of accounting as defined by Oklahoma Statutes may use GASB 34 compliant audit report presentations.
 - (C) Schools using the regulatory basis of accounting as defined by Oklahoma Statutes may use another comprehensive basis of accounting as prescribed by the Oklahoma State Department of Education. An example of a school district single audit report presented in conformity with another comprehensive basis of accounting as prescribed by the Oklahoma State Department of Education is available in the Financial Accounting Section, State Department of Education. Schools need only present the funds and note disclosures that apply to the specific district. The example is not intended to take precedence over professional reporting standards and requirements.
- (2) Informational statements will specify
 - (A) Board members and officers
 - (B) Statutory bonds
 - (C) Other fidelity or honesty bonds
 - (D) Insurance coverage
 - (E) Other desirable statements
 - (3) Size of audit report will conform to the specified dimensions:
 - (A) Length = Maximum, 11"
 - (B) Width = Maximum, 8 1/2"
 - (4) Each audit report shall be presented to and reviewed with the local board of education in a public meeting as required by law. Each audit report must contain a signed Acknowledgement Page on a form supplied by the State Department of Education. The Acknowledgement Page will verify the date the audit was reviewed with the local school board as well as the school board's acknowledgement that, as the governing body of the district responsible for the district's financial and compliance operations the audit findings and exceptions have been presented to them.
- (g) Requirements specific to federal programs must be included in each audit.
 - (1) Federal regulations (OMB Circular A-133, and Compliance Supplement) require a financial and compliance audit of programs receiving federal funds. These regulations (in accordance with P.L. 98-502) ensure that audits be made on an organizationwide basis rather than a grant-by-grant basis and according to the standards and procedures expressed therein. The Oklahoma State Department of Education shall serve as the recipient agency for A-133 purposes for the local educational agencies. Overclaim assessments may be levied where necessary when there has been a lack of compliance and treated as a current expenditure.
 - (2) This rule and the adoption of the standards and regulations for audits of local boards of education does not limit the authority of federal or state agencies to make audits of programs in the local educational agencies, and is in keeping with OMB Circular A-133. Some state and local governmental units in Oklahoma prepare their financial statements in conformity with a comprehensive basis of accounting other than generally accepted accounting principles. A-133 does not prohibit such practice; nonetheless, it requires, as do generally accepted auditing standards, that auditors state in their report the departures from generally accepted accounting principles. However, any additional audit work must build on the work already done.
 - (3) The auditor should clearly understand that A-133 audits require the expression of opinions and inclusion of comments in audit reports which go beyond the standard opinions and comments usually presented. Specifically, the audit report shall include:
 - (A) Financial statements, including footnotes, of the recipient organization.
 - (B) The auditors' comments on the financial statements which should:
 - (i) Identify the statements examined, and the period covered.
 - (ii) Identify the various programs under which the organization received federal funds, and the amount of the awards received.
 - (iii) Identify by a schedule showing receipts and disbursements for each grant program.
 - (iv) State that the audit was done in accordance with the "General Accounting Office Standards for Audit of Governmental Organizations, Programs, Activities, and Functions," the "Guidelines for Financial and Compliance Audits of Federally Assisted Programs," any compliance supplements

- approved by OMB, and generally accepted auditing standards established by the American Institute of Certified Public Accountants.
- (v) Express an opinion as to whether the financial statements are fairly presented in accordance with generally accepted accounting principles. If an unqualified opinion cannot be expressed, state the nature of the qualification.
- (C) The auditors' comments on compliance and internal control should:
 - (i) Include comments on weaknesses in and noncompliance with the systems of internal control, separately identifying material weaknesses.
 - (ii) Identify the nature and impact of any noted instances of noncompliance with the terms of agreements and those provisions of federal law or regulations that could have a material effect on the financial statements and reports.
 - (iii) Contain an expression of positive assurance with respect to compliance with requirements for tested items, and negative assurance for untested items.
 - (D) Comments on the accuracy and completeness of financial reports and claims submitted to state or federal agencies for federal fund advances or reimbursements.
 - (E) Comments on corrective action taken or planned by the recipient.
 - (F) Comments as to whether the indirect cost rates are appropriately calculated and applied.
- (4) These requirements are common to nearly all state and local funds and federal programs:
- (A) Funds disbursed by other governments were received and properly identified.
 - (B) Interest earned on idle funds was credited to the proper funds.
 - (C) Unexpended funds or unearned federal funds advanced or overpaid were correctly accounted for.
 - (D) A system of encumbrance accounting was maintained which reported the amount obligated, disbursed, remaining unobligated balance, and outstanding unliquidated obligations for each fund and program.
 - (E) Obligations reported were actually incurred during the fiscal year or approved program period, and, upon liquidation, were properly adjusted.
 - (F) Payments reported: Were actually made to the vendors, contractors and employees; were supported by adequate evidence of delivery of goods or performance of services; and conformed to applicable laws and regulations, including procurement requirements.
 - (G) Refunds, discount, etc., were properly applied as reductions of the gross expenditures of the specific funds or programs.
 - (H) Costs, direct and indirect, were correctly prorated to the proper funds or programs.
 - (I) The same expenditure was not claimed under more than one program or reported as an expenditure for two fiscal or program years.
 - (J) Inventory requirements for materials and equipment purchased with federal funds were maintained.

Each fund shall account for and continually maintain the identity of its revenues and expenditures. Financial transactions for purposes of this regulation and as referenced in 70 O.S. 2001, § 5-135.2 shall be defined as a detailed reporting of revenue within the Source of Revenue dimension. Revenue shall be reported to the bold codes within each of the following broad categories: District Source of Revenue, Intermediate Source of Revenue, State Source of Revenue, and Federal Source of Revenue. Expenditures shall be reported by the bold codes within the Function dimension as follows: Instruction, Support Services-Students, Support Services-Instructional Staff, Support Services-General Administration, Support Services-School Administration, Support Services-Central, Operation and Maintenance of Plant Services, Student Transportation Services, Child Nutrition Programs Operations, Community Services Operations and Facilities Acquisition and Construction Services. Additional dimensions for Revenue and Expenditures are coded to provide classification by Fiscal Year, Fund, Project Reporting, Object, Program, Subject, Job Classification, and Operational Unit, where applicable.

Further, none of the data submitted by Law can be changed or altered by either the school district or the Financial Accounting Section after November 15 of each year.
- (d) As referenced in 70 O.S. 2001, § 5-135.2 (B), the State Department of Education shall reduce the monthly payment of a district's State Aid funds if the district is not operating pursuant to said system. Not operating pursuant to said system shall be defined as a district not:

 - (5) reconciling all recorded and reported revenue and expenditures by applicable OCAS bold code dimensions by balancing data with bank receipts and statements, purchase orders, warrant registers, investment ledgers, and all balance sheet accounts; and
- (e) For appropriated funds, all indebtedness should be encumbered (have a purchase order issued and be recorded) on the day the obligation is incurred, rather than when it becomes due, and supporting documentation should be provided for all indebtedness.

- (g) A school district shall be authorized to utilize general fund monies for capital expenditures, in addition to the amount specified in subsection (c), pursuant to the provisions of 70 O.S. 2001, § 1-117.
- (h) Inventory cards or data processing records shall be kept on all equipment and removable fixtures, showing purchase order number when known, date of purchase (when known, if not known an estimated date shall be used), amount of purchase (if known, if not known present value must be estimated) a description of the item, the serial number (when applicable) and the location of the item. REQUIREMENTS FOR FILING FOR FEDERAL PROGRAMS REIMBURSEMENT WITH THE STATE DEPARTMENT OF EDUCATION

Computer program-generated expenditure reports are mandatory. The format of the computer program-generated report must ensure that all information is in the same relative location as it appears on the standard report samples.

- The primary heading on the expenditure report should reflect the federal program section at the State Department of Education (SDE) that is responsible for authorizing funding of the designated project.
- The signature date must be manually filled in by the chief executive officer or authorized representative at the time the report is signed. The date that the report is generated may be printed elsewhere on the report, but it is not required.
- The report order must be sequential by function and object.
- Total expenditures must never exceed the beginning budgeted balance. The district's computer system must edit for this.
- All summary information must be reported on a separate summary report.
- Every school district must submit a summary budget for each state-administered federal project, by fiscal year and project reporting code. On the summary budget, the function dimension will be summarized to the third digit (e.g., 2110, 2130), and the object dimension will be summarized to the first digit (e.g., 100, 200).
- Expenditures must continue to be coded to the bold or the detail level. Both detail and summary expenditure reports must be submitted for audit review of funds received.
- All vendors, including service bureaus and school districts with in-house generated Oklahoma Cost Accounting System (OCAS) software, are required to provide computer programs to generate detail and summary expenditure reports in 8 1/2" x 11," SDE-approved format. All expenditure reports must be computer program generated. No report will be processed that has any manual changes.
- There may be expenses that need to be itemized on the report that do not have purchase orders or warrant numbers. Indirect cost is one. It may be listed without purchase order and warrant numbers as long as the function and object codes for indirect cost are used.

Warehouse requisitions for materials that are included in the approved budget for a federal program may be listed. Warehouse materials requisitioned must be itemized by function and object. The requisition number and date requisitioned should be listed on the purchase order number and date columns.

- Journal entries **to adjust a federal expenditure are acceptable.** The original purchase order number and date should be documented on all entries involved in the adjustment. Journal entries to clear balances from reports will be acceptable.
- Claims for reimbursement of legal expenditures whose function and object category falls within an approved summary budget function and object category will be processed for payment. Expenditures

(except indirect cost and fund transfers) will be allowed to exceed the approved budgeted function-object category by 100 percent, provided the sum of all expenditures does not exceed the total budget. No variance will be allowed on indirect cost or fund transfers.

- Budget revisions will be required when:
 1. An expenditure exceeds the maximum allowable variance for an individual function/object category;
 2. Approved program changes require the addition of a function/object category; or
 3. Unobligated first-year funds are carried over as indicated on a Revised Allocation Notification.
- Budget revisions and narrative justifications for program changes must be submitted prior to the obligation of funds.
- Subgrants of federal funds to local educational agencies (LEA) are available for obligation for two state fiscal years (24 months). Allocations to LEAs for the first fiscal year (12 months) must be obligated as current year funds. Obligations incurred by the end of the fiscal year must be liquidated within 90 days of the end of the obligation period and a final expenditure report filed with the State Department of Education by August 1.

Any balance of first-year funds unobligated by June 30 will remain available for obligation as first-year carryover for a second fiscal year (12 months). Carryover funds unobligated by June 30 will remain as unclaimed funds for three months. Districts failing to meet the August 1 reporting deadline will remove the federal project reporting code and goods and services will be paid from noncategorical funds. Current year funds remaining will become carryover funds beginning October 1.

GENERAL FUND CARRYOVER PENALTY

Calculation for Prior Year's General Fund Balance

Pursuant to 70 O.S. § 18-200.1, the State Department of Education will send notification to each school district by February 1 of each year, detailing the calculation of the General Fund Carryover Penalty. Within 30 calendar days, each district will respond to the Department in writing, accepting or protesting the penalty amount. Districts will be notified by March 15 of the Department's findings, and the penalty will be assessed by April 1.

Any penalty assessed for excessive general fund carryover will be determined by using data that will be extracted from a school district's Web-based data collection filed with the State Department of Education (Financial Accounting/Oklahoma Cost Accounting System [OCAS]) and crosschecked with the Estimate of Needs filed with the State Board of Equalization and the Financial Accounting/OCAS Section of the State Department of Education. (Examples of the calculation for determining the maximum allowable amount of General Fund Carryover follow.)

In the "**General Fund Balance (GFB) Example Number 1**" on the following pages, the GENERAL FUND NEW COLLECTIONS to be considered for the carryover penalty calculation are \$1,593,631. The General Fund Balance Allowable percentage is 35 percent (35%). Therefore, the allowable amount of carryover is \$557,771. The actual amount of the school district's general fund carryover (Line C) is \$327,399. The example district is well within the allowable amount of \$557,771. No penalty will result.

However, if the actual amount of the school district's general fund carryover (Line C) had exceeded the allowable amount (as in "**GFB Example Number 2**"), **deduct Federal Revenue and Gifts, Donations, and Endowments** received during the 2007-08 school year (Sources of Revenue: 4000 Series, 1610, and 1640). Next, deduct any of the following exclusions that are applicable to your school district (see following paragraphs.) If a balance remains, a State Aid penalty would result.

Title 70, Section 18-200.1 (Paragraph G):

"Notwithstanding the provisions of Section 18-112.2 of this title, a school district shall have its State Aid reduced by an amount equal to the amount of carryover in the general fund of the district as of June 30 of the preceding year, that is in excess of the following standards for two consecutive years."

Exclusions in Law:

"Any school district which receives proceeds from a tax settlement or a Federal Emergency Management Agency (FEMA) settlement during the last two (2) months of the preceding fiscal year shall be exempt from the penalties assessed in this subsection, if the penalty would occur solely as a result of receiving funds from the tax settlement."

"Any school district which receives an increase in State Aid because of a change in Foundation and/or Salary Incentive aid factors during the last two (2) months of the preceding fiscal year shall be exempt from the penalties assessed in this subsection, if the penalty would occur solely as a result of receiving funds from the increase in State Aid." Note: This applies to all school districts that received an adjusted allocation in Foundation and Salary Incentive Aid in June 2007 because of the factor adjustment.

“If a school district does not receive Foundation and/or Salary Incentive Aid during the preceding fiscal year, the State Board of Education may waive the penalty assessed in this subsection if the penalty would result in a loss of more than forty percent (40%) of the remaining State Aid to be allocated to the school district between April 1 and the remainder of the school year and if the Board determines the penalty will cause the school district not to meet remaining financial obligations.”

*“Any school district which receives gross production revenue apportionment during the 2002-2003 school year **or in any subsequent school year** that is greater than the gross production revenue apportionment of the preceding school year shall be exempt from the penalty assessed in this subsection, if the penalty would occur solely as a result of the gross production revenue apportionment, as determined by the State Board of Education.”*

“Beginning July 1, 2003, school districts that participate in consolidation or annexation pursuant to the provisions of the Oklahoma School Voluntary Consolidation and Annexation act shall be exempt from the penalty assessed in this subsection for the school year in which the consolidation or annexation occurs and for the next three (3) years.”

“Any school district which receives proceeds from a sales tax levied by a municipality pursuant to Section 22-159 of Title 11 of the Oklahoma Statutes or proceeds from a sales tax levied by a county pursuant to Section 1370 of Title 68 of the Oklahoma Statutes during the 2003–2004 school year or the 2004–2005 school year shall be exempt from the penalties assessed in this subsection, if the penalty would occur solely as a result of receiving funds from the sales tax levy.”

“For purposes of calculating the general fund balance penalty, the terms “carryover” and “general fund balance” shall not include federal revenue.”

***70 O.S. § 1-117:**

*“G. Schools which receive gifts or donations or state-appropriated monies for the purpose of capital expenditures or projects shall place such monies in the building fund, as provided by Section 1–118 of this title, and not in the general fund. School districts which receive gifts, grants, or donations of monies for noncapital expenditures **may place the monies in the general fund**, and such monies shall not be required to be used during the year in which the money was received but may accumulate from year to year and **shall not be considered a part of the general fund collections when calculating the general fund carryover** as provided in subsection G of Section 18-200.1.”*

SCHOOL DISTRICT TREASURER

Section 63. School District Treasurer - Assistant Local Treasurer.

- A. The county treasurer of each county shall be the treasurer of all school districts in the county, except that the board of education of a school district may appoint a local treasurer for the school district and, in its discretion, an assistant local treasurer of the district, each of whom shall serve at the pleasure of the board for such compensation as the board may determine. The assistant local treasurer may perform any of the duties and exercise any of the powers of the local treasurer with the same force and effect as if the same were done or performed by the local treasurer. Before entering upon the discharge of the duties of the assistant treasurer, the assistant treasurer shall give a bond in such amount as the board of education may designate, with good and sufficient sureties to be approved by the board, conditioned for the faithful performance of his or her duties. A local treasurer or assistant local treasurer need not be a resident of the school district where appointed to serve although any local treasurer or assistant local treasurer shall be a resident of this state. Nothing herein shall prevent a local treasurer or assistant local treasurer from being appointed for more than one school district.
- B. Whenever a county treasurer is designated as the treasurer for a school district, the county treasurer may elect to charge for such services. If said charges are assessed, the treasurer shall prepare a special estimate of needs each fiscal year, covering all expenditures of the office on behalf of any school districts for which the county treasurer serves as treasurer. The estimate for treasurer services shall be itemized by personal services and maintenance and operation expenditures and shall be filed with the county excise board. In reviewing and approving this estimate, the county excise board shall authorize and levy amounts for treasurer services which in the judgment of the board will be sufficient to perform the services. The board shall apportion the cost among the school districts for which the treasurer services are to be charged in the ratio which each school district's total appropriations for the preceding year bears to the total appropriations of all such school districts receiving treasurer services for the preceding year. The amounts shall be included in, or added to, the estimates of needs or budget of each such school district. The amount as approved and appropriated by the county excise board shall be paid by the school district, by appropriate warrants, to the county for deposit in the county general fund. **(70-5-114)**

Section 64. Local Treasurer - Surety Bond - Duties - Cash and Investment Ledgers.

- A. Unless the context clearly shows otherwise, the term "treasurer," as used in this section, includes a county treasurer acting as the treasurer of a school district pursuant to the provisions of Section 5-114 of this title. The treasurer so appointed shall execute, before entering upon the duties of the office of the treasurer, a surety bond in an amount which it is estimated by the board of education the treasurer will have on hand at any one time during the current year, and the amount of securities held as investments shall not be considered. The board of education is empowered to require the treasurer to increase or decrease the bond of the treasurer as the amount of funds on hand may require. Provided, the bond of a school district shall not, in any event, be required to be in an amount greater than that of the county treasurer of the county. The premium on the bond shall be paid by the board of education out of district funds. Provided, however, the treasurer of such district shall require the depository wherein school district funds are deposited to insure or guarantee the deposit by proper securities, which shall be of the same class of securities as are required to insure deposits of county treasurers of the

various counties, and the securities shall be pledged, taken and kept in the manner provided by Sections 517.1 through 517.7 of Title 62 of the Oklahoma Statutes.

- B. In all districts which are permitted by law to select a local treasurer, the county treasurer shall act as treasurer thereof until such time as a local treasurer shall be appointed and has executed the surety bond required by this section. In no instance in which the county treasurer is the treasurer of any school district shall any additional bond be required, but the official bond of the county treasurer shall stand for any and all funds and securities coming into the hands of the county treasurer.
- C. The local treasurer of a district, when required by the board of education, shall prepare and submit in writing a report of the condition of the finances of the district and shall produce at any meeting of the board or to any committee appointed for the purpose of examining the accounts of the treasurer all books and papers pertaining to the office of the treasurer. Upon failure to make reports as provided for herein or as may otherwise be required by law, the board may at any regular or special meeting thereof summarily suspend the treasurer, and while so suspended, the treasurer shall perform no act pertaining to the office of the treasurer. Such suspension shall continue until ended by order of the board or by judgment of a court of competent jurisdiction.
- D. The local treasurer of a school district shall keep a separate cash ledger for each fund in the custody of the treasurer. The local treasurer shall enter each collection and disbursement in the cash ledger of the applicable fund by recording the date and classification of each transaction and such other information as may be deemed desirable. Additional ledgers shall also be maintained to record the investments made from each fund. Such investment ledgers shall disclose the date, description and principal amount paid for each investment purchased and the date and principal amount received for each investment liquidated.
- E. Upon suspension by the board, the treasurer shall immediately turn over to the board of education or to the acting treasurer, if one has been appointed by the board all books and papers and other property pertaining to the office of the treasurer.
- F. Except as otherwise provided by law, no treasurer of any district shall pay out school district funds in the care of the treasurer except upon warrants signed by the proper school district officials authorized by the law to sign such warrants, provided, this restriction shall not apply to sinking funds or to the investment of school district funds. Authorized sinking fund payments and payment for investments or receipt of liquidated investments may be made by check, wire transfer or other instrument or method through the Federal Reserve System.
- G. The board of education shall, each month, set aside funds to an operating account and to an investment account. Investments by the treasurer shall be made in accordance with a written policy adopted by the board of education. The written investment policy shall address liquidity, diversification, safety of principal, yield, maturity, quality of the instrument, and capability of investment management. Acting within the investment policy, the treasurer shall place primary emphasis on safety and liquidity in the investment of funds. Taking into account the need to use sound investment judgment, school districts shall, to the extent practicable, use competitive bids when they purchase direct obligations of the United States Government or other obligations of the United States Government, its agencies or instrumentalities. Such system shall be designed to maximize yield within each class of investment instrument, consistent with the safety of the funds invested. The board of education must review the investment performance of the treasurer on a regular basis and no less than each month. The treasurer of every school district shall invest the full amount of the investment account in:
 - 1. Direct obligations of the United States Government to the payment of which the full faith and credit of the Government of the United States is pledged; provided, a treasurer of a school district who has completed the program pursuant to the provisions of subsection H of this section may invest funds in the investment account in other obligations of the United States Government, its agencies or instrumentalities;
 - 2. Obligations to the payment of which the full faith and credit of this state is pledged;

3. Certificates of deposits of banks when such certificates of deposits are secured by acceptable collateral as in the deposit of other public monies;
 4. Savings accounts or savings certificates of savings and loan associations to the extent that such accounts or certificates are fully insured by the Federal Savings and Loan Insurance Corporation. Provided, that the income received from the investments may be placed in the general fund of the governmental subdivision to be used for general governmental operations;
 5. Repurchase agreements that have underlying collateral consisting of those items specified in paragraphs 1 and 2 of this subsection including obligations of the United States, its agencies and instrumentalities, and where the collateral has been deposited with a trustee or custodian bank in an irrevocable trust or escrow account established for such purposes;
 6. County, municipal or school district direct debt obligations for which an ad valorem tax may be levied or bond and revenue anticipation notes, money judgments against such county, municipality or school district ordered by a court of record or bonds or bond and revenue anticipation notes issued by a public trust for which such county, municipality or school district is a beneficiary thereof. All collateral pledged to secure public funds shall be valued at no more than market value. The income received from an investment may be placed in the general fund of the governmental subdivision to be used for general governmental operations, the sinking fund, the building fund, or the fund from which the investment was made;
 7. Money market mutual funds regulated by the Securities and Exchange Commission and which investments consist of obligations of the United States, its agencies and instrumentalities, and investments in those items and those restrictions specified in paragraphs 1 through 6 of this subsection;
 8. Warrants, bonds or judgments of the school district; or
 9. Qualified pooled investment programs, the investments of which consist of those items specified in paragraphs 1 through 8 of this subsection, as well as obligations of the United States agencies and instrumentalities, regardless of the size of the district's budget. To be qualified, a pooled investment program for school funds must be governed through an interlocal cooperative agreement formed pursuant to Section 5-117b of this title, and the program must competitively select its investment advisors and other professionals. Any pooled investment program used must be approved by the board of education.
- H. The board of education is hereby empowered to require the treasurer to satisfactorily complete an investment education program approved by the State Board of Education and the State Board of Career and Technology Education. Such program shall be designed to allow treasurers to make informed decisions regarding the safety, return, liquidity, costs and benefits of various investment options allowed under this section.
- I. The income received on an investment may be placed in the fund from which the investment was made, the general fund, the building fund, or the sinking fund. **(70-5-115)**

If a check or warrant cannot be paid for want of sufficient funds, a district may enter into an agreement not to extend beyond the current fiscal year with the depository bank to honor payment of these checks at an annual rate of interest as negotiated by the district and depository bank, which shall not exceed a rate equal to five percent (5%) above the average United States Treasury Bill rate of the preceding calendar year as determined by the State Treasurer on the first regular business day of each year. **(70-5-115b)**

Section 66. Oath of Office.

Each member of the board of education and the treasurer and assistant treasurer of a school district shall take and subscribe to the following oath:

Such bond shall be furnished by a company duly qualified under the insurance laws of this state and shall be purchased by the school district. Oklahoma Administrative Code (OAC) 210:25-5-11. The school district treasurer

(a) The law requires the county treasurer of each county to also be the school district treasurer for all school districts in the County, except that the board of education in each school district may appoint a local treasurer. It is, however, agreed upon by the above-mentioned office and the Department of Education that if the treasurer follows the principles and procedures as provided below for the operation of the local treasurer's office of the school district, a valuable service to boards of education, taxpayers and the general public will occur.

- (b) The Treasurer is required by law to:
 - (1) Insure that warrants shall show warrant number, fiscal year, and fund against which the warrant is being drawn.
 - (2) Code all receipts using the Oklahoma Cost Accounting System dimensions of Fiscal Year, Fund, Project Reporting, Source of Revenue, Program, and Operational Unit, to the bold dimension for State Department of Education requirements. Each group of warrants paid by a treasurer's check shall also have a copy of the treasurer's check with which they were purchased attached to them.
 - (2) Voided Warrants--Shall be filed in the numerical order of their issuance by fund and by fiscal year in a separate file and shall be sufficiently mutilated to prevent their being cashed but not mutilated as to not be identifiable.

- All field definitions and record layout requirements will remain the same.
- After the data has been “rolled,” it needs to be saved as either expend.dat or revenue.dat.

REMINDERS: When entering the county/district number:

- Be sure to use the number zero (0) and not the letter (O).
- Independent districts need to be sure to use the letter “I,” not the number one.

WEB-BASED REPORTING

- Select the School District Reporting Site link.
- When the logon screen appears, type in your username and password, then click on Logon.
- Highlight and click on OCAS Revenue and Expenditure Files Processing.

Upload:

- If you know the file and path name of the desired document (expend.dat or revenue.dat), you can type it in directly or click on Browse and find the document. Please note: Only the named document can be uploaded in the file holder.
- After you have gathered the data, click on Upload. The computer system will inform you if the data upload was successful, or if incorrect data was submitted (county/district codes, wrong fiscal year, too many characters, etc.).
- The data will be processed and posted several times a day. You will be able to view any error listings or other messages at that time.

Reports:

- To view error listings, click on View Detail. The computer system will take you to the Detailed Error Report. This report can be printed by using the print option on your browser. Only the fund totals will be listed if the data processed without any edit check errors.
- To generate, view, and print final reports, select the desired report under Final Reports (left side of screen, toward bottom). Using the drop-down prompt, select District Revenue, District Expenditures, District Revenue Comparison, or District Expenditure Comparison. Reports are generated in Portable Document Format (PDF). Click on Request Report. You will receive an alert message that states: Print request has been generated. Click OK.

The system will generate a report and post the requested data in the Requested Reports section. As the report is processing (as you will see under Status), wait about 10–15 seconds, then click on "Click

To Update Status" (this sets the report to the screen). At this point you should be able to select View Report. The report will open using Acrobat Reader and be printed using the print option found on the Acrobat toolbar.

- Once the reports have passed all common edit checks, review the comparison reports to determine (1) if data was doubled, (2) there was a loss in revenue, (3) all funds were coded in one area. The Financial Accounting Section will be reviewing these reports as well for the same errors.
- When the reports are accurate, the superintendent must certify that the reports are correct. The superintendent will certify the reports by activating the "certify" option on the OCAS screen.
- State Department of Education staff will perform a desk review of the certified data and either accept or reject the data.
- If the data is rejected, the district will be notified of the areas of deficiencies and allowed to resubmit the data. The data will need to be certified again by the superintendent.

REMINDER: Final reports must be certified no later than September 1.

FEDERAL FUNDS

Section 385. Purpose of Funds - Federal Funds.

- A. The funds apportioned and disbursed to the several school districts of the state shall be for the purpose of aiding each school district receiving the same to finance its school budget for each fiscal year. The State Board of Education shall notify the county clerk, the board of education, superintendent of each school district and the school district treasurer of the tentative amount said district is to receive from the funds apportioned under the provisions of this article and disbursed according to the provisions hereof. After such allocation of State Aid has been made by the State Board of Education and certified to the treasurer of the school district and district superintendent of schools, such aid may be included as probable income by the board of education in its Estimate of Needs and Financial Statement as submitted to the county excise board, and said excise board shall include such amount in the approved appropriations, and in addition thereto any federal aid certified or allocated by the State Board of Education shall be included in the appropriation made by the excise board if requested by the board of education; provided, no such federal aid estimate shall be used in any way to reduce the State Foundation Aid or Incentive Aid for such school district or sustain a protest for the reduction of a tax levy. If such allocation of aid is not included in the board of education's estimate of needs, it shall be added by the county clerk to the items of appropriation designated by the board of education of the school district. Funds received under the provisions of this article shall be deposited in the general fund of such school district. Provided, funds received from the federal government for current expense purposes shall likewise be added to the appropriation of the general fund if so designated by the board of education of such school district. Provided, further, that the board of education of a school district may enter into agreements with federal agencies for educational projects and programs to be maintained in such districts; and federal funds received by the district in pursuance thereof shall, consistent with the agreement and requirements of the federal agency, be kept, administered and disbursed in such manner as may be prescribed by rules and regulations of the board of education.
- B. If the State Board of Education should ascertain that allocation of State Aid to any school district has so changed as to reduce its State Aid, then the State Board of Education shall forthwith notify the district superintendent, the clerk of the board of education, and the treasurer thereof, as to the amount of reduction in the allocation of State Aid. If there has been an overpayment the same shall be returned to the State Treasurer and credited to a refund account which shall be available for further payment of State Aid. Whenever it becomes necessary for a school district to refund any overpayment of monies previously received, the school district shall issue such warrant against a properly approved encumbrance in the manner provided by law. Such claim or encumbrance shall be coded as a refund of prior revenue and paid from the current expense appropriation of the general fund or such other fund or account from which such refund may properly be paid by the school district. **(70-18-104)**
