

OKED TLE Online Training Course Guide Sheet

2015 Pilot Participants

Purpose of Video:

The purpose of the Oklahoma Education Dashboard (OKED) for Teacher and Leader Effectiveness (TLE) training course is to provide 2015 pilot participants with an overview of the TLE dashboard. Note that these modules focus on functionality and content designed for the TLE dashboard pilot only. Pending policy changes may result in updates to some of the content and functionality prior to the 2015-16 school year.

Audience:

These video modules are designed for participants in the OKED TLE Dashboard pilot.

Modules:

This training course contains three modules. It is recommended that you start with Module 1.

Module 1: What is the OKED TLE Dashboard?

- This module offers important background information about the OKED TLE dashboard, including a recap of the data sources used to populate the dashboard, a review of different data levels and how they are displayed, and an explanation of how to access the application.

Module 2: TLE Dashboard Individual View

- This module focuses on dashboard navigation for individual educators and previews the data they can see on the TLE Overview page, the Qualitative page, the Student Academic Growth Page, and the Other Academic Measures page.

Module 3: TLE Dashboard Aggregate View

- This module explains how data is displayed at the aggregate level for individual educators, school leaders, and district leaders.

Important Related Sites:

Oklahoma Educator Dashboards for Teacher Leader Effectiveness - **Demo Site**

- Use this site for training
- Contains sample data and sample users (teachers, school leaders, etc.)
- Accessible through the SSO2 portal

Oklahoma Educator Dashboards for Teacher Leader Effectiveness- **Live Site**

- Use this site only after training is complete
- Contains real TLE data collected during the TLE pilot
- Accessible through the SSO2 portal

Timeline of Data:

When looking at your individual OKED TLE dashboard (live site), the data displayed is as follows:

- VAM results for the 2013-14 evaluation year (based on SY2012 – 2013 test results)
- Observation data for the 2013-14 evaluation year
- VAM results for the 2014-15 evaluation year (based on SY2013 – 2014 test results)
- OAM results for the 2014-15 TLE evaluation year (OAM data completed during SY2013-14)
